German Militarism Holds ing to the country's needy Sway Today With Generals Ready For Action

(International News Service) iron heel of German militarism was clamped down upon Prussia today.

Clothed with greater powers than were ever wielded by the Kaiser, Chancellor Franz Von Papen was in complete control of the situation, while behind him loomed the grim figure of Gen. Kurt Von Schleicher, the Minister of defense, Three Companies Of Nationready to hurl the regular troops of the Reichwehr into action at the first sign of resistance.

The opposition had collapsed overnight, however. The former Prussian cabinet had yielded to the Reich government at every point.

#### DEMANDS OF HABIT

Man is a creature of habit. Traditions and customs are strong upon him. The average person finds that it is as difficult to cast off an old custom as to escape from man's hereditary superstitions.

What is the reason for the row of buttons on the cuffs of a made by a man in prison. But when man's coat? Ornamentation? No! They are there because two centuries ago men wore sleeves so tight they had to be unbuttoned at the cuffs to be removed. The tight cuff went out of style, but custom dic- skill in his hands but not a shred tated the retention of the buttons.

The first steamships had masts because in those days a ship witheut a mast was not a ship. For the same reasons of custom and habit the new motor ships of today are being built with funnels, although they make no smoke.

Great Britain's largest motor ship, the Britannic, has two funriels. One houses escape pipes, ventilators and various odds and ends of machinery. The other? The other has been made into a smoking room for the engineers. And so the smoke goes up the chimney just the

#### TOO STRONG EVEN FOR RASKOB

The extent to which the Democratic Convention in Chicago was stampeded by the wets is strikingly illustrated by the fact that even Chairman John J. "I am sorry the majority has taken this course. I am not in favor of that extreme position. It would have been sufficient for the party to ask its members of Congress to submit the question of repeal to the states. I do not think it wise to put the Democratic party itself on record for or against repeal. We must remember that we have had two parties within one party-that in the North and that in the South. I want repeal but I believe we'll never accomplish it by making the South mad. I argued with Governor Smith, last night on that very point.

"To have the fanatical wets put the screws on the party now, just as they objected to the fanatical drys doing the same \* thing hitherto is not going to help the question before the people."

## Piles Go Quick

Thousands who have itching, bleeding or protruding piles have not yet learned that quick and lasting relief internal medicine. Neither salves nor suppositories remove the cause. Bad circulation, of blood in the lower bowel causes piles. The hemorrhoidal veins are flabby, the bowel cine must be used to stimulate the circulation, drive out the thick impure blood, heal and restore the afpure blood, heal and restore the affetced parts.

Dr. J. S. Leonhardt, after years of study, found a real internal Pile remedy He called his discovery HEM-ROID, and prescribed it for 1000 patients with success in over 900 cases, and then decided every Pile sufferer, no matter how stubborn their case, might try his prescription with a money back guarantee.

CURE **VAPOR-LOCK** 

CLIMATIC-CONTROL\*

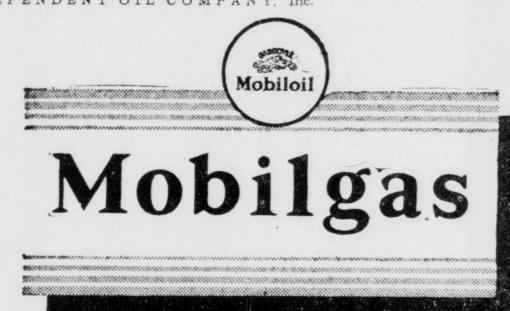

WHEN your car bucks, spits, stalls these hot spring and summer days, don't run up repair bills trying to find out what's the matter. It is simply vapor-lock. Vapor-lock will occur when "engine heat"—increased by hot weather or undue strain—gets so high that it vaporizes your gasoline in the feed-line before it reaches your carburetor. This vapor shuts off fuel. Your car bucks, spits, stalls—strangled!

Because of Climatic-Control, Mobilgas guards against vapor-lock. It is hard to vaporize in the feed-line because its specifications have been preadjusted to adapt it automatically to all changes of "engine heat" caused by summer weather or undue driving strain. Mobilgas with Climatic-Control maintains your car at its highest usable level of performance wherever, whenever you drive.

There is no price increase for Mobilgas with Climatic-Control.

and other congested areas. He recalled for the conferees that unless the constitutional amendments proposed are passed this week for final approval until 1938. To get approval at the 1933 election, they must be advertised by August 8 next and submitted to the regular session

of the assembly in 1933. One of the constitutional amendments in the agreed program provides for a state loan of \$50,000,000 to reimburse local communities for

money expended for direct relief. Did Not Discuss Economy Bill.

Conferees did not discuss the \$22,275,000 economy program, and senate leaders announced that renewed efforts to enact the pledged program do not mean the slash bills will be killed in committee. Although appropriations committee members declined to reveal what revisions were planned for the economy schedule, it was expected the bills would be reported to the floor

Other legislation the governor urged conferees to hurry to enactment included the measure to remove the elimination of natural and artificial gas companies, steam heat and water companies from the eight mills gross receipts tax levied on other utilities.

The governor signed the Freeman senate bill authorizing the secretary of banking to borrow money from the reconstruction finance corporation on the assets of closed state banks and trust companies. It also permits leasing of real estate of closed banks for a period of not more than ten years. Under its terms, the banking secretary also may sell securities of the closed institutions at his own discretion and extend the payment of mortgages for periods not exceeding three years.

# as gas gets staler-gas gets weaker

Do you know what happens when gas gets stale? It loses power! As staleness increases, the more volatile parts of gas evaporate. A chemical change takes place when gas is stored. And power decreases!

Stale gas is feeble gas. Gives you a slower start. Sluggish pick-up. It is more apt to foul valves and carbureter - because stale gas becomes stickier as it grows older. Stale gas knocks more, tooparticularly on hills.

The whole petroleum industry has long known these facts. And for the past several years, Gulf has been developing a system that assures you of getting FRESH gasoline! How?...

First, by giving you the best gasoline that can be made—by so refining this gas that the elements that cause rapid deterioration of gasoline are eliminated. Hence, Gulf gas stays FRESH longer. Second, by taking this FRESH-MADE, PEAK-

## A 30-day test will prove this new gasoline is superior to some premium gasolines costing you 3 cents more

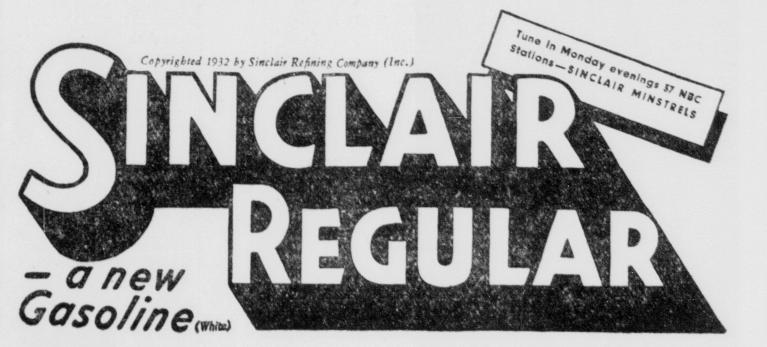

The new Sinclair Regular Gasoline has been stepped up 70% in anti-knock at a cost of more than \$18,000,000 in new refinery equipment. This outstanding bargain in motor fuels is actually superior in anti-knock to some premium gasolines which sell at three cents more per gallon. By and large, this new gasoline is the highest antiknock gasoline in its price class. And how the public likes this new

bargain! In a single month 19 representative Sinclair service stations in Chicago gained 65% in sales of the new Sinclair

Regular compared with a year ago. 7 stations in Indianapolis, Indiana, gained 111% - 19 in Detroit, Michigan, 60% -9 in Cleveland, Ohio, 91% -7 in Columbus, Ohio, 62%. And more reports like these are coming in all the time.

Convince yourself-try the new Sinclair Regular for 30 days. Here is knockless power for the hills - a faster pick-up in traffic, and real economy.

NOTE: For best results, use Sinclair Opaline or Sinclair Pennsylvania Motor Oil. Both have been de-waxed, and also freed from petroleum jelly at as low as 60° F. below zero.

# THESE PRICES PROVE

you don't have to buy low quality tires to get LOW PRICE

TERE'S something to think about if you want the biggest I money's worth of comfort, safety and trouble-free mileage when you buy tires.

You don't have to buy low quality tires to get low price.

You don't have to take second-choice tires to save moneybecause FIRST-CHOICE costs no more.

Here are prices that prove it. Read them and remember, they buy real Goodyears. Big, stout, husky, tough Supertwist balloons with the name Goodyear Speedway on the sidewall, and Goodyear materials through and through.

For 17 years, motorists have voted Goodyear Tires the best on the market-because they have bought more Goodyear Tires than any other kind. Because Goodyear makes millions more tires than any other rubber manufacturer, it stands to reason Goodyear can build them better and better.

Take another look at the prices here, and ask yourself: Why buy any second-choice tire when FIRST-CHOICE costs no more!

By LESLIE GOULD

NEW YORK, July 21.—The stock market turned irregular today after a modest improvement in the early dealings. Pressure on leaders like American Can and American Telephone halted the upturn and the market slipped below last night's closing prices.

The bond market continued its deliberate improvement with German issues recovering from yesterday's sinking spell. Grains were steady and silver was better. Cotton market steady tone; demand fair;

Speculative activity was noted in 15; Leghorn hens 11-13; colored some of the low priced issues like coilers 16-20; Leghorn broilers 13-International Telephone and Bendix which scored slight gains. Oils were firm. Aided by the pro-
